

Three Oaks Farm Alpacas Field Trips

Schedule a class trip for Pre-School and Elementary age children and their families

Visits focus on: Alpaca history and care, and provide interactive, hands on interaction with the animals. Students also participate in making Alpaca crafts and have access to our alpaca store to remember this special experience. We specialize in teaching farm to table as well. *Other animals we could focus on are pigs, ducks, chickens, goats, cows, horses, and rabbits!*

Owner Pam Purce is a former elementary school teacher with a Masters in Education. Contact us to schedule a time and we will tailor the learning experience to best suit the needs and wants of your group of any age.
